

**10<sup>th</sup> Emerging Scholars Colloquium**  
**21 August 2023**  
**University of St Andrews, Scotland (UK)**

**THIRD AND LAST CALL FOR APPLICATIONS**

**Submission Deadline: 28 April 2023**

The Centre for Social and Environmental Accounting Research (CSEAR) is pleased to organize the 10<sup>th</sup> **Emerging Scholars Colloquium**, a one-day event for emerging scholars working on social and environmental accounting research. This year the colloquium will take place on **21 August 2023**, immediately before the **33<sup>rd</sup> International Congress on Social and Environmental Accounting Research** that will be held at the University of St Andrews, Scotland (UK) on 22-24 August 2023. The participants of the Emerging Scholars Colloquium are expected to join the CSEAR UK Congress after the colloquium.

The aim of the colloquium is to provide an opportunity for emerging scholars in social and environmental accounting (SEA) research to present and discuss their research projects alongside a cohort of distinguished international faculty. The colloquium will maintain an informal atmosphere to enable intensive intellectual debate.

In addition to supporting the advancement of research projects, the aim of the ESC is to introduce emerging scholars into the SEA research community. At the same time, it facilitates a reflection on questions, issues, and topics potentially of interest to emerging scholars. For this purpose, we invite participants to actively engage by raising questions and concerns throughout the event, creating a lively and engaged forum for discussion.

### **The Faculty**

The colloquium will be organized into small group sessions guided by leading scholars in the field of SEA research, representing various research methodologies, topics, and a range of theoretical expertise. There will also be some plenary sessions where participants will be able to interact (both formally and informally) with faculty and organising committee members.

The event is organized by Leonardo Rinaldi - (*Royal Holloway University of London, London*), Ericka Costa (*University of Trento, Italy*) and Andrea Romi (*Texas Tech University, TX*)

### **Criteria for the selection of participants**

To facilitate dialogue and discussion, the number of emerging scholars invited to participate is limited. Ideally, applicants should have at minimum made some progress in their doctoral research. All other early career scholars are also encouraged to apply to the colloquium.

Submissions will be selected according to:

- quality (broadly defined) of the research project proposal,
- subject matter directly or indirectly related to SEA, and
- geographical, gender, theoretical and methodological diversity.

## Applications

Interested emerging scholars wishing to participate in this event are invited to apply by submitting **ONE single Word file** including:

1. a description of the research project (maximum 2,000 words). It should include the title of the project and a summary of the research question, the theoretical and methodological framework(s) utilized or considered, the expected contribution, the potential implications from the research, the discussion of the results to date, and any challenges encountered. It should also include the list of bibliographical references (but will not be tallied towards the maximum word count);
2. a one-page curriculum vitae, including name, e-mail address, institutional affiliation, research interests, PhD supervisor (if applicable) and years in the doctoral program to date (if applicable).

## Submission

Applications should be submitted no later than **28 April 2023** to [leonardo.rinaldi@rhul.ac.uk](mailto:leonardo.rinaldi@rhul.ac.uk), [ericka.costa@unitn.it](mailto:ericka.costa@unitn.it) and [andrea.romi@ttu.edu](mailto:andrea.romi@ttu.edu) indicating "CSEAR Emerging Scholars Colloquium 2023" in the subject. Invited students will be notified by **May 31 2023**.

## Practical information

Venue: The Gateway Building, University of St Andrews, North Haugh, St Andrews.

Accommodation: Like the CSEAR 2023 UK conference, the CSEAR Emerging Scholars Colloquium will be organized as a residential event. For more information, please visit [CSEAR website](#).

Cost: This year's Emerging Scholars Colloquium will be sponsored by **Accounting Forum** and the **Erivan K. Haub Chair in Business & Sustainability** in the Schulich School of Business at York University, Canada. Thanks to the generous support from our sponsors, CSEAR will be able to offer bursaries to a limited number of participants. Scholars attending the colloquium are required to become a [paid member of CSEAR](#) and **register** for the 33<sup>rd</sup> International Congress on Social and Environmental Accounting Research. The CSEAR website will soon provide charges and full details of how to register at: <http://csear.co.uk>. Registration will open in Spring 2023.

More information about the event will be provided upon acceptance of the proposals.
